Lab manager position (F/M)

Hosting structure

The Curie Institute Research Center
The “Institut Curie” is a major player in the research and fight against cancer. It consists of a hospital and a Research Center of more than 1000 employees with a strong international representativeness. The objective of the Curie Institute Research Center is to develop basic research and to use the knowledge produced to improve the diagnosis, prognosis, and therapeutics of cancers as part of the continuum between basic research and innovation serving the patient.

Job description

The Institut Curie, located in the center of Paris, is an internationally renowned research institution bringing together physicists, chemists, biologists, bioinformaticians and clinicians. Jean-Léon Maître, head of the “Mechanics of mammalian development” team (https://institut-curie.org/team/maitre), is seeking a lab manager with a strong interest in interdisciplinary research.

The candidate will study the morphogenetic events occurring before implantation of the mammalian embryo, using genome engineering and live microscopy. The candidate’s work will include developmental biology techniques with recovery, culture and manipulation of mouse embryos; genome engineering with design, cloning, in vitro transcription, gene editing and genotyping; live microscopy; data and image analysis.

In addition, together with a co-lab manager, the candidate will be responsible for organizing the lab (ordering, management of mouse colony, …).

Candidate Profile

- **Training and experience:** Prior experience with molecular biology and genome engineering is essential; Mouse handling, microscopy, and/or image analysis will be extremely valuable, but on-the-job training will be provided.
- **Skills:** Good communication and interpersonal skills, excellent organizational skills and the ability to work as part of an international team are required.

*All our opportunities are open to people with disabilities.*

Contract information

- **Type of contract:** Fixed-term contract
- **Starting date:** As soon as possible
- **Duration:** 12 months initially
- **Working time:** full time
- **Remuneration:** According to current salary grids

- **Benefits:** Collective catering, reimbursement of transportation fees up to 70%, complementary health insurance
- **Location of the position:** Paris
- **Reference:** 2023-09-UMR3215/U934-LABMANAGER01
